

Linda Ottaway's Dare to Dream

May 6, 2015

Linda Ottaway has been a resident here at Victoria Village Manor for many years now. She is an amazing mother of two who was diagnosed with MS at a young age. After getting to know Linda, we as a team decided to spoil her with some of her favorite things, as well as fulfill her dream of getting a tattoo. Therefore, Linda became our latest recipient of a Dare to Dream.

Linda's day started with her first surprise of a manicure from the esthetician here at Victoria Village. Linda could not believe she was getting her nails done from a "real professional" and was showing her nails off to everyone who went by her.

It was then time for lunch. We spoiled Linda with a few of her favorites, including pizza, diet coke and a bag of Doritos. Linda could not have been more excited!

Staff reassured Linda this wasn't the last surprise of the day. At 3:00pm staff arranged for a henna tattoo artist to come give Linda a tattoo. She has mentioned many times that she would love to have her children's and husband names tattooed on her arm. Linda was so happy with the results that she asked if the artist

could come back and give her another one possibly on her hip. At the end of the day Linda was so happy and appreciative. She really enjoyed herself and could not believe all of these wonderful things had happened to her.
